## FOREWORD

---

We take pleasure in presenting to the trade our latest illustrated catalogue of LOGGING TOOLS, which we have endeavored to make as complete as possible.

### FACILITIES

We offer the product of three factories, equipped with the most modern machinery and under the supervision of men of long experience in this line, and fully guarantee all tools free from imperfections of material or workmanship.

### DELIVERIES

Being in close daily touch with our factories, we are able to promise the trade prompt execution of all orders entrusted to us.

### HANDLE SUPPLY

The timber suitable for Logging Tool Handles must be of the highest quality, and should be *air seasoned*. The supply of such timber is constantly diminishing, which necessitates the enlarged facilities at our command to properly provide for this very important item.

### PRICES

Our prices will always be as low as the high quality of our product and the market price of raw material and labor will permit.

We invite your inquiries.

## LIST PRICES

The list prices shown in this catalogue take effect October 1, 1913, and all quotations and sales after that date are based on them. All previous list prices and quotations are cancelled and withdrawn.

## SHIPMENTS

Our goods are manufactured at Evart, Michigan; Oshkosh, Wisconsin, and Columbus, Indiana. Our factories are so located as to insure quick delivery to all parts of the country at lowest rates of freight.

Regarding shipments from any particular factory: When we are not restricted the order will be placed with factory which can give the best service in the matter of prompt shipment and delivery.

## TERMS

All bills are net sixty days from date of invoice, less two per cent discount for cash if paid within ten days from date of invoice. Bills not paid within sixty days are subject to sight draft.

## PAYMENTS

Remittances should be made in Chicago or New York exchange, as under the new clearing house rules exchange is charged on all other checks.

## CLAIMS

Claims for deductions must be made within five days after receipt of goods. Our responsibility ceases when Bill of Lading is obtained. We do not guarantee delivery of goods.

## QUOTATIONS

All quotations are for immediate acceptance, as prices are SUBJECT TO CHANGE WITHOUT NOTICE.

## MALLEABLE SOLID SOCKET PEAVIES WITH PATENT SCREW PICK AND WASHER

*Claim*—A peavy consisting of the handle A, having a tapering shoulderless lower extremity, a tapering and shoulderless metallic socket B, fitted to the tapered extremity of the handle and projecting beyond the same, a washer D, arranged at the lower and smaller end of the socket, and the spear or metallic point C, having a shoulder resting against the washer and provided with a screw threaded shank C 2, engaging the tapering extremity of the handle and serving by the rotation of the spear or metallic point to draw the tapering end of the handle tightly into the metallic socket.

### DESCRIPTION

The objects of our invention are, first, to provide a *substantial and durable* attachment of the *socket* to the *handle*; second, to adjust the pike so that in use it will have the least strain upon the wood; and, third, to use the shank of the pike for the purpose of tightening the handle in the sockets when these parts become loosened from continued use or wetting and drying of the wood which causes shrinkage. All that is necessary to be done to tighten it up is with the ordinary monkey wrench to screw down the pike. Washer "D" is provided with a flange around its outer edge, which, with the body, forms a shoulder. The inner portion of the washer fits in closely between the rim of the lower end of the socket as shown in Fig. 6. But if found desirable, the washer "D" may be made integral with the socket "B" but we think the detached washer more desirable.

### With select rock maple handles and "duck bill" hooks.

## BADGER DOUBLE GRIP CAR MOVER "Never Slip"

The "Badger" in position to move car

### SPURS

The great essential in any Car Mover is the Spur. Our Never-Slip Concave Spur is the latest and best construction yet obtained for gripping the car rail so that the car mover positively will not slip.

By setting two spurs in concave, we surround the surface of the rail, catching the corners where it is soft, also getting a double hold on same.

No. 877 Badger Car Mover, each.....\$5.00

### LOG MARKING HAMMERS

No. 880 Log Marking Hammers, 1 to 3 letters, 1 1/8 inch. Each \$2.00

If a Special Design of Hammer is wanted, add \$1.50 for cost of pattern.

## ROCK MAPLE AND BEECH CANT HOOK AND PEAVEY HANDLES

We manufacture our own handles from carefully selected timber. We do not Kiln-dry, but air season them. They are turned with great care, nicely sanded, polished, and put up in bundles of one-half dozen. We can also pack them in crates if desired, at a small additional charge.

Consider that in getting your handles from us, you avoid the risk of having trash and inferior goods sent you. Poor handles are dear at any price. Choice, strong handles are a source of satisfaction to the lumbermen.

The "Regular Grade" is our standard quality. They are carefully sorted and are a first-class handle.

Our "Select Grade" of handles is a selection of the best handles only, a strictly fancy quality.

No. 966—	2¼ x 3	Rock Maple and Beech.	Per dozen.....	\$2.50
No. 700—	3½	Rock Maple and Beech.	Per dozen.....	2.75
